Subject index to volume 5

Aborigine, Australian; Wilson's disease in 705
achalasia
  treatment of (Editorial) 702
  of oesophagus; dilatation for 682
acid secretion; response to modified sham feeding in duodenal ulcer patients 116
activated charcoal; for intraduodenal methyl *tert*-butyl ether spillage during dissolution of gallstones 490
acute diarrhoea; causative agents in first 3 years of life 264
acute haemothorax; hepatocellular carcinoma presenting as (Case Report) 362
acute pancreatitis
  bile-induced, in dogs; peritoneal absorption of pancreatic enzymes 493
  complicated; impact of CT management 103
adenomyosis; of gall bladder (Editorial) 204
aetiology
  acute diarrhoea in children 264
  and epidemiology of diarrhoea in the elderly (Review) 449
  hepatocellular carcinoma in Karachi, Pakistan 1
albumin binding; polymerized, to serum in liver diseases; relation to hepatitis B virus infection 16
alcohol, and cigarette consumption; risk factors in oesophageal cancer in southern Thailand 391
alcohol-treated rats; collagen synthesis by cultured rat liver cells isolated from chronically 411
alimentary tract infections; Kupffer cell functions during intestinal amoebiasis in guinea pigs 518
aminopropeptide, type III procollagen; determination in patients with primary liver cancer 633
angioscopy, intra-operative; direct observation of the portal vein in dog and man 234
antacid activity; effect of Roter (bismuth subnitrate) in patients with duodenal ulcer disease and healthy volunteers 382
'anti-copper' agents; effect of treatment in Wilson's disease 420
antibodies, monoclonal; against hepatocellular carcinoma 601
antibody
  to herpes simplex virus type 1 in peptic ulcer patients 387
  polymeric IgA; to gliadin in coeliacs 675
antigens; immunohistochemical localization of DU-PAN-2 and CA19–9 in digestive tract carcinomas 25
anti-HBs; efficacy after administration of hepatitis B vaccine 126
antipyrine elimination test; guideline for selecting biliary drainage patients 219
apoptosis; in normal rat gastroduodenal mucosa 369
Asia; dengue fever (Editorial) 700
Australia; extracorporeal shock wave lithotripsy for bile duct stones 537
Australian Aborigine; Wilson's disease in 705
auto-immunity; chronic active hepatitis
  classification of (Invited Editorial) 360
  patients seronegative for conventional auto-antibodies 244
  lupoid; an entity in the spectrum of chronic active liver disease (Invited Special Article) 352
auto-immunity; in chronic active hepatitis; argument against (Invited Special Article) 343
autosomal defect; genetic aspects in Wilson's disease (Review) 483

bacterial chemotactic peptides
  degrading by enzymes in human ileal and colonic mucosa 375
  immunoreactive; radio-immunoassay for FMLP; II. Demonstration of an enterohepatic circulation of 38
  radio-immunoassay for FMLP; I. Development and application to assessment of 32
bacterial biofilm; formation on nasogastric tubes 503
bacterial peritonitis, spontaneous (Review) 438
basal acid, hypersecretion; response to modified sham feeding in duodenal ulcer patients 116
Behcet's disease; oesophageal and ileal ulceration in 714
bile-induced acute pancreatitis in dogs; peritoneal absorption of pancreatic enzymes in 493
bile acids; regurgitation in rat liver under bile drainage; 121
bile drainage
  regurgitation of bile acids in rat liver under; 121
  transhepatic; antipyrine elimination test as a guideline for selecting patients for 219
bile duct stones; extracorporeal shock wave lithotripsy for; 537
biliary calculi; duodenoscopic sphincterotomy for (Review) 686
biliary tract; immunohistochemical localization of cancer associated antigens in digestive tract carcinoma 25

binding; of polymerized human serum albumin in liver diseases: relation to hepatitis B virus infection 16
biofilm, bacterial; formation on nasogastric tubes 503
biopsy; percutaneous liver; safe outpatient procedure (Short Communication) 94
bismuth subnitrate (Roter); in duodenal ulcer patients and healthy volunteers 382
bleeding, from oesophageal varices; glypressin versus vasopressin for treatment of 549
blood lymphocytes, peripheral; characterization in non-cirrhotic portal fibrosis patients 554
bone disease, metabolic; in primary biliary cirrhosis (Review) 66
book reviews 101, 215, 365, 491, 590, 724
bowel; ispaghula therapy in irritable bowel syndrome 507
bromodeoxyuridine incorporation; healing of cysteamine-induced ulcer in rats using 281

CA19–9, and DU-PAN–2; immunohistochemical localization in digestive tract carcinomas 25
calculi, biliary; duodenoscopic sphincterotomy for (Review) 686
Campylobacter pylori
infection in Malaysian patients with dyspepsia 277
rapid diagnosis of infection by urea test paper 514
cancer
gastrointestinal tract; and lymphokine-activated killer cells 110
liver
resection and hepatic function (Review) 296
primary; determination of type III procollagen aminopropeptide 633
carboxyl terminal glycine; gastrin G in patients with gastric or duodenal ulcer and in gastrinomas 525
carcinoma
digestive tract; immunohistochemical localization of cancer-associated antigens 25
hepatocellular
in Karachi, Pakistan 1
small; percutaneous injection of ethanol for 616
long-term survivors after hepatectomy 595
case control study; of oesophageal cancer in southern Thailand 391
cell proliferation; pathobiology of chemical hepatocarcinogenesis, Part I (Review) 149
cell renewal; apoptosis in normal rat gastroduodenal mucosa 369
chemical hepatocarcinogenesis
cytomorphology and cell proliferation in, Part I (Review) 149
metabolic and molecular changes, Part II (Review) 310
chemo-infusion; intra-arterial, for hepatic metastases; portal vein obstruction complicating (Case Report) 708
chemotactic peptides
enteric bacterial production; radio-immunoassay for FMLP; Part I. 32
immunoreactive bacterial; radio-immunoassay for FMLP; Part II. 38
chest pain, non-cardiac; and oesophageal disease (Review) 180
children
causative agents of acute diarrhoea 264
management of pre-operative nutritional support for transplantation 560
cholangitis, primary sclerosing; clinical and immunopathological features 135
chronic active gastritis
argument against auto-immunity in (Invited Special Article) 343
auto-immune; classification of (Invited Editorial) 360
Campylobacter pylori infection in Malaysian patients 277
idiopathic; auto-immune features in patients seronegative for conventional auto-antibodies 244
chronic active liver disease; auto-immune (lupoid) hepatitis (Invited Special Article) 352
chronic hepatitis; with fatty change 223
chronic liver disease; management of pre-operative nutritional support for liver transplantation 560
cimetidine, low-dose; in acute treatment of duodenal ulcer 5/6
circadian variations; in morphology and function of hepatocytes (Review) 321
circulation
enterohepatic, of immunoreactive bacterial chemotactic peptides in man; radio-immunoassay for FMLP; Part II. 38
portal, in monkeys and humans after ingestion of a radiolabelled capsule 228
cirrhosis
hepatic function and liver resection (Review) 296
hepatic toxicity of Vitamin A and synthetic retinoids (Review) 334
liver; subclass restriction of immunoglobulin G in 627
comparison with non-cirrhotic portal fibrosis patients and healthy controls; characterization of peripheral blood lymphocytes 554
primary biliary
clinical manifestations in Taiwan 560
clinicopathology 639
metabolic bone disease in (Review) 66
with portal hypertension; caution in verapamil treatment 141
classification; of auto-immune chronic active hepatitis (Invited Editorial) 360

clearance, of hepatitis B surface antigen; correlation with HBV infection 252
coeliacs; polymeric IgA antibody to gliadin 675
collagen synthesis; by cultured liver cells from chronically alcohol-treated rats 411
comfrey ingestion; associated with hepatic veno-occlusive disease (Case Report) 211
common bile duct stones; methyl *t*-butyl ether as solvent in patients with T-tube *in situ* 130
computed tomography; impact on management of complicated acute pancreatitis 103
copper metabolism, in Wilson's disease; genetic aspects (Review) 483
corrosive acids causing intestinal injuries (Selected Summary) 722
Crohn's disease
current concepts in pathogenesis of (Review) 44
enzymes degrading bacterial chemotactic F-met peptides in ileal and colonic mucosa 375
cysteamine-induced duodenal ulcer in rats; *in vivo* cell kinetics studies 281
cytochrome levels; influence of piecemeal necrosis on compensatory increase in tumour-bearing liver 7
cytomorphology and cell proliferation in chemical hepatocarcinogenesis; Part I (Review) 149

dengue fever in Asia (Editorial) 700
dengue virus infection; clinical and upper gastroendoscopic features 5/6
diabetes; effect on hepatic microsomal mixed function oxidase activities 256
diabetes mellitus; with Laurence-Moon-Biedl syndrome and congenital hepatic fibrosis (Case Report) 206
diagnosis; of gall-bladder adenomyosis (Editorial) 204
diarrhoea
acute, causative agents in first 3 years of life 264
in the elderly; epidemiology and aetiology (Review) 449
Yersinia enterocolitica: microbial pathogenesis and pathophysiology of (Review) 173
digestive tract; immunohistochemical localization of cancer associated antigens in carcinomas of 25
DNA; hepatitis B core antigen in liver of chronic hepatitis B patients 239
Doppler flowmetry; in portal hypertension (Review) 459
dose regimens, of cimetidine; comparison in acute treatment of duodenal ulcer 669
DU-PAN-2, and CA19-9; immunohistochemical localization in digestive tract carcinomas 25
duodenal ulcer
gastric response to modified sham feeding in patients with 116
low-dose cimetidine in acute treatment; comparison of dose regimens 5/6
mechanism of action of Roter (bismuth subnitrate) in healthy volunteers and patients with 382
gastrin G in gastric antral mucosa of patients with 525
duodenoscopic sphincterotomy; for biliary calculi (Review) 686
duodenum; *in vivo* cell kinetics studies of 281
dyspepsia
Campylobacter pylori infection in Malaysian patients 277
non-ulcer; serum pepsinogen I levels in patients with 271

elderly; epidemiology and aetiology of diarrhoea in (Review) 449
endoscopic extraction; extracorporeal shock wave lithotripsy for bile duct stones not amenable to 537
endoscopic sclerotherapy, emergency; efficacy of 432
Entamoeba histolytica; acute diarrhoea in children 264
enteric bacteria; radio-immunoassay for FMLP, Part I. Chemotactic peptide production by 32
enteric non-A, non-B hepatitis
in India (Review) 288
virus; intraportal transmission in Macaca mulatta monkeys 608
enteric pathogens; causing acute diarrhoea in children in Pakistan 264
enzymes, pancreatic; peritoneal absorption in bile-induced pancreatitis in dogs 493
epidemiology
diarrhoea
aetiology in the elderly (Review) 449
Escherichia coli, causative agent 264
enteric non-A, non-B hepatitis in India (Review) 288
oesophageal cancer in southern Thailand 391
Escherichia coli; diarrhoea in children 264
ethanol
nicotine-induced gastric injury, and blood flow 653
effects of intrahepatic injection in the rabbit 402
percutaneous injection for small hepatocellular carcinoma 616
excretion, faecal; of haem and haem-derived porphyrins (Review) 194
experimental diabetes; effect on hepatic microsomal mixed function oxidase activities 256
experimental duodenal ulcer; *in vivo* cell kinetics of healing duodenum 281
extracorporeal shock wave lithotripsy, for bile duct stones 537

fatty liver; in chronic hepatitis patients 223
ferroprotoporphyrin; faecal excretion (Review) 194

fistula, iatrogenic mesenteric arteriovenous; ultrasonography, CT, angiography and histology of liver biopsy (Case Report) 586
formyl methionyl leucyl phenylalanine, radio-immunoassay
Part I. Chemotactic peptide production 32
Part II. Circulation of bacterial chemotactic peptides 38
fulminant hepatitis, murine; efficacy of streptococcal preparation 395

gall-bladder; adenomyosis of (Editorial) 204
gallstones; adsorption of intraduodenal methyl *t*-butyl ether spillage during dissolution of 490
gastric acid; response to modified sham feeding in patients with duodenal ulcer 16
gastric antral mucosa; gastrin G in gastric or duodenal ulcer patients and in gastrinomas 525
gastric injury, nicotine- and ethanol-induced; effect of misoprostol, omeprazole and sucralfate 616
gastric mucosa, portal hypertensive; 'mosaic-like' pattern after variceal eradication by sclerotherapy 659
gastrin G; in gastric antral mucosa of gastric or duodenal ulcer patients and in gastrinomas 525
gastro-oesophageal reflux; and non-cardiac chest pain (Review) 180
gastroduodenal mucosa; apoptosis in normal rat 369
gastrointestinal bleeding; faecal excretion of haem and haem-derived porphyrins (Review) 194
gastrointestinal tract cancers; and lymphokine-activated killer cells 110
genetic obesity; effect on hepatic microsomal mixed function oxidase activities 256
genetics
Wilson's disease (Review) 483
Wilson's disease (Editorial) 697
Giardia lamblia; acute diarrhoea in children in Pakistan 264
gliadin; polymeric lgA antibody to, in coeliacs 675
glypressin; versus vasopressin in control of bleeding oesophageal varices 549

haem and haem-derived porphyrins; faecal excretion of (Review) 194
haemorrhage, peptic ulcer; stigmata of recent (Selected Summary) 96
haemothorax, acute; hepatocellular carcinoma presenting as (Case Report) 362
hepatectomy
piecemeal necrosis and mitochondrial enzymes of tumour-bearing liver 7
for hepatocellular carcinoma; long-term survivors 595
hepatic encephalopathy; due to intrahepatic communication (Case Report) 718
hepatic fibrosis, congenital; with Laurence-Moon-Biedl syndrome (Case Report) 206
hepatic function; and liver resection (Review) 296
hepatic lymphatic system; structure and function (Review) 82
hepatic metastases; portal vein obstruction complicating intra-arterial chemo-infusion for (Case Report) 708
hepatic toxicity; of Vitamin A and synthetic retinoids (Review) 334
hepatic veno-occlusive disease; associated with comfrey ingestion (Case Report) 211
hepatic vessels; Doppler flowmetry in portal hypertension (Review) 459
hepatitis
auto-immune chronic active; classification of (Invited Editorial) 360
chronic, with fatty change 223
enteric non-A, non-B
in India (Review) 288
virus; intraportal transmission in monkeys 5/6
idiopathic chronic active; auto-immune features 244
murine fulminant; efficacy of streptococcal preparation 395
hepatitis B
core antigen; relation to virus DNA 239
defects in precore region of virus DNA from carriers seropositive for antibody against e antigen 646
hepatitis delta virus infection 407
polymerized albumin binding in liver diseases 16
surface antigen; correlation of virus infection route with clearance of 252
vaccine; persistence of anti-HBs and protective efficacy after administration of 126
hepatocarcinogenesis
cytomorphological changes and cell proliferation in, Part I (Review) 149
metabolic and molecular changes in, Part II (Review) 310
hepatocellular carcinoma
chemical, Part I. Cytomorphology and cell proliferation (Review) 149
defective immunological functions 542
in Karachi, Pakistan 1
long-term survivors after hepatectomy 595
intra-operative angioscopy to observe portal vein 234
presentation as acute spontaneous haemothorax (Case Report) 362
small; percutaneous injection of ethanol 616
hepatocytes; rhythms in morphology and function of (Review) 321

hepatolithiasis; 'metaplastic lesions' in intrahepatic bile ducts in 530
herbal remedies; hepatic veno-occlusive disease associated with comfrey ingestion (Case Report) 211
herpes simplex virus; type 1 in peptic ulcer patients; antibody to 387

iatrogenic mesenteric arteriovenous fistula; ultrasonography, CT, angiography and histology of liver biopsy (Case Report) 586
idiopathic achalasia; treatment of (Editorial) 702
IgA antibody; to gliadin in coeliacs 675
ileal ulceration; in Behcet's disease (Case Report) 714
immunoglobulin G; subclass restriction in liver cirrhosis 627
immunohistochemistry
'metaplastic lesions' in intrahepatic bile ducts in hepatolithiasis 530
localization of cancer-associated antigens in digestive tract carcinomas 25
immunological functions, defective; in hepatocellular carcinoma 542
immunological profile; of non-cirrhotic portal fibrosis patients 425
immunopathology; of primary sclerosing cholangitis 135
immunosuppressive therapy; in idiopathic chronic active hepatitis patients seronegative for conventional auto-antibodies 244
India; enteric non-A, non-B hepatitis in (Review) 288
infantile diarrhoea, acute; causative agents 264
infection
alimentary tract; Kupffer cell functions during intestinal amoebiasis in guinea pigs 518
dengue virus; clinical and upper endoscopic features of 664
hepatitis B virus
correlation of surface antigen clearance with route of 252
polymerized albumin binding to serum in liver diseases 16
interleukin-2; defective response of lymphokine-activated killer precursor cells in hepatocellular carcinoma 542
intestinal amoebiasis, in guinea pigs; Kupffer cell functions during 518
intestinal injuries from corrosive acids (Selected Summary) 722
intestinal peptidases; degrading bacterial chemotactic F-met peptides in human ileal and colonic mucosa 375
intra-arterial chemo-infusion for hepatic metastases; portal vein obstruction complicating (Case Report) 708
intra-operative angioscopy; direct observation of the portal vein in dog and man 234
intrahepatic alcohol injection, in rabbit; morphological and biochemical effects of 402
intrahepatic bile ducts; 'metaplastic lesions' in hepatolithiasis 530
intrahepatic communication; causing encephalopathy (Case Report) 718
intraportal transmission; of enteric non-A, non-B hepatitis virus in monkeys 608
irritable bowel syndrome; ispaghula therapy in 507
Ito cells; collagen synthesis by cultured rat liver cells from chronically alcohol-treated rats 411

Japan
hepatitis delta virus infection in 407
schistosomiasis japonica; clinical manifestations and pathophysiology (Review) 160

Karachi, Pakistan; hepatocellular carcinoma in 1
Kupffer cell; functions during intestinal amoebiasis in guinea pigs 518

Laurence-Moon-Biedl syndrome; with congenital hepatic fibrosis (Case Report) 206
liver
cirrhosis; subclass restriction of immunoglobulin G in 627
hepatic toxicity of Vitamin A and synthetic retinoids (Review) 334
role in porphyrin metabolism disorders 573
tumour-bearing; influence of piecemeal necrosis on mitochondrial respiratory enzymes 7
liver biopsy
iatrogenic mesenteric arteriovenous fistula; ultrasonography, CT, angiography and histology 586
liver cirrhosis
efficacy of emergency endoscopic sclerotherapy for active variceal bleeding due to 432
vascular reactivity to norepinephrine in rats with (Selected Summary) 97
liver copper; concentration in Wilson's disease 420
liver disease; polymerized albumin binding to serum in; relation to hepatitis B virus infection 16
liver function; assessment of (Review) 468
liver resection; and hepatic function (Review) 296
liver transplantation; management of pre-operative nutritional support 560
long-term survivors; after hepatectomy for hepatocellular carcinoma 595

lupoid (auto-immune) hepatitis; an entity in the spectrum of chronic active liver disease (Invited Special Article) 352
lymphatic system; structure and function (Review) 82
lymphocytes, peripheral blood; characterization in non-cirrhotic portal fibrosis, cirrhotics and healthy controls 554
lymphokine-activated killer cells, in gastrointestinal tract cancers; reduction of tumour growth 110
lymphokine-activated killer activity, abnormal; in hepatocellular carcinoma patients; defective immunological functions associated with 542

Macaca mulatta; intraportal transmission of enteric non-A, non-B hepatitis virus in 608
Malaysia; *Campylobacter pylori* infection 277
management; of nutritional support for liver transplantation children 560
metabolic bone disease; in primary biliary cirrhosis (Review) 66
metabolism
copper, in Wilson's disease; genetic aspects (Review) 483
porphyrin disorders; role of the liver in (Review) 573
'metaplastic lesions'; in intrahepatic bile ducts in hepatolithiasis 530
methyl *t*-butyl ether
solvent for common bile duct stones 130
intraduodenal; adsorption of spillage during dissolution of gallstones 490
microbial pathogenesis, of *Yersinia enterocolitica*; and pathophysiology of diarrhoea (Review) 173
microcirculation; structure and function of hepatic lymphatic system (Review) 82
misoprostol, omeprazole and sucralfate; effect on nicotine- and ethanol-induced gastric injury and gastric mucosal blood flow 653
mitochondrial enzymes, respiratory; compensatory increase in tumour-bearing liver 7
monoclonal antibodies, against hepatocellular carcinoma; multiplicity of 601
morphology, and function of hepatocytes; circadian rhythms (Review) 321
'mosaic-like' pattern; of portal hypertensive gastric mucosa after variceal eradication by sclerotherapy 659
mouse hepatitis virus, infection; efficacy of streptococcal preparation on murine fulminant following 395
mucosa
human ileal and colonic; enzymes degrading bacterial chemotactic F-met peptides in 375
normal rat gastroduodenal; apoptosis in 369

nasogastric tubes; bacterial biofilm formation on 503
necrosis, piecemeal; influence on mitochondrial respiratory enzymes of tumour-bearing liver 7
nicotine- and ethanol-induced gastric injury; effect of misoprostol, omeprazole and sucralfate 653
non-cirrhotic portal fibrosis
characterization of peripheral blood lymphocytes; comparison with cirrhotics and healthy controls 554
immunology of patients with 425
non-ulcer dyspepsia; serum pepsinogen I levels in 271
norepinephrine, in rats with liver cirrhosis; vascular reactivity to (Selected Summary) 97
nutritional support; pre-operative management in liver transplantation 560

obstructive jaundice; selection of patients for biliary drainage 219
oesophagus
cancer, in southern Thailand 391
disease; and non-cardiac chest pain (Review) 180
ulceration; in Behcet's disease 714
pneumatic dilatation for achalasia 682
treatment of ideopathic achalasia (Editorial) 702
varices; glypressin versus vasopressin in the control of bleeding from 549
OK-432 (streptococcal preparation); protective efficacy following mouse hepatitis virus infection 395
omeprazole; effect on nicotine- and ethanol-induced gastric injury and mucosal blood flow 653
osteoporosis; and primary biliary cirrhosis (Review) 66
outpatient procedure; percutaneous liver biopsy (Short Comm.) 94
oxidase activities
hepatic microsomal mixed function; effect of genetic obesity and experimental diabetes on 256

pain, non-cardiac chest; and oesophageal disease (Review) 180
Pakistan; acute diarrhoea in first 3 years of life 264
pancreas; immunohistochemical localization of cancer-associated antigens 25
pancreatitis
bile-induced acute, in dogs; peritoneal absorption of pancreatic enzymes in 493
management of complicated acute; impact of CT 103
parasitic disease; schistosomiasis japonica in Japan (Review) 160
pathobiology, of chemical hepatocarcinogenesis; cytomorphology and cell proliferation in, Part I (Review) 149

pathogenesis; of Crohn's disease (Review) 44
pathophysiology
chemical hepatocarcinogenesis; metabolic and molecular changes, Part II 310
diarrhoea; *Yersinia enterocolitica*; microbial pathogenesis and (Review) 173
penicillamine; effect on liver copper concentration in Wilson's disease 420
pepsinogen I; serum levels in patients with non-ulcer dyspepsia 271
peptic ulcer
antibody to herpes simplex virus type 1 387
stigmata of recent haemorrhage (Selected Summary) 96
peptides
chemotactic, bacterial production; RIA for FMLP, Part I. 32
immunoreactive bacterial chemotactic; RIA for FMLP, Part II. 38
per-rectal scintigraphy; in human and monkey portal circulation after ingestion of radiolabelled capsule 228
percutaneous ethanol injection; for small hepatocellular carcinoma 616
percutaneous liver biopsy; safe outpatient procedure (Short Comm.) 94
peritoneal absorption; of pancreatic enzymes in bile-induced acute pancreatitis in dogs 493
peritonitis; spontaneous bacterial (Review) 438
phagocytic capacity; and Kupffer cells during intestinal amoebic infection 518
piecemeal necrosis
influence on mitochondrial respiratory enzymes of tumour-bearing liver 7
polymeric IgA antibody to gliadin in coeliacs 675
polymerized albumin binding, to serum in liver diseases; and hepatitis B virus infection 16
porphyrin
haem-derived, and haem in faeces; detection of (Review) 194
metabolic disorders; role of the liver in (Review) 573
portal circulation; in monkeys and humans after ingestion of radiolabelled capsule 228
portal fibrosis, non-cirrhotic
efficacy of emergency endoscopic sclerotherapy 432
immunology of patients with 425
portal hypertension
characterization of peripheral blood lymphocytes; comparison with cirrhotics and healthy controls 554
Doppler flowmetry in (Review) 459
effect of verapamil on splanchnic haemodynamics in rat model 141
gastric mucosa; 'mosaic-like' pattern after variceal eradication by sclerotherapy 659
immunology of non-cirrhotic portal fibrosis patients 425
portal vein
direct observation by intra-operative angioscopy 234
extrahepatic obstruction; efficacy of emergency endoscopic sclerotherapy 432
obstruction complicating intra-arterial chemo-infusion for hepatic metastases (Case Report) 708
postcholecystectomy; methyl *t*-butyl ether as solvent for common bile duct stones in 130
pre-operative nutritional support; for liver transplantation children 560
precore region defects; of hepatitis B virus DNA from carriers positive for antibody against e antigen 5/6
primary biliary cirrhosis
clinical manifestations in Taiwan 560
clinicopathology 639
metabolic bone disease in (Review) 66
primary liver cancer; determination of type III procollagen aminopropeptide 633
primary sclerosing cholangitis; clinical and immunopathological factors 135
procollagen, type III aminopropeptide; determination in primary liver cancer patients 633
prostaglandin, mucosal; effect of Roter (bismuth subnitrate) in duodenal ulcer patients and healthy volunteers 382
pyrrolizidine alkaloids, in comfrey; and hepatic veno-occlusive disease (Case Report) 211

radio-immunoassay, for FMLP 32, 38
radionuclide; portal circulation in monkeys and humans after ingestion of capsule containing 228
rapid diagnosis; of *Campylobacter pylori* infection by urea test paper 514
rat liver, regurgitation of bile acids under bile drainage 121
respiratory enzymes, mitochondrial; influence of piecemeal necrosis on compensatory increase in tumour-bearing liver 7
retinitis pigmentosa, in Laurence-Moon-Biedl syndrome; with congenital hepatic fibrosis (Case Report) 206
Rotavirus; acute diarrhoea in children in Pakistan 264
Roter (bismuth subnitrate); in patients with duodenal ulcer disease and healthy volunteers 382

Salmonella; acute diarrhoea in children in Pakistan 264
schistosomiasis japonica; clinical manifestations and pathophysiology (Review) 160
sclerosing cholangitis, primary; clinical and immunopathological features 135

sclerotherapy; 'mosaic-like' pattern of portal hypertensive gastric mucosa after variceal eradication by 659
serum; polymerized albumin binding to, in liver disease 16
serum amylase; peritoneal absorption of pancreatic enzymes in bile-induced acute pancreatitis in dogs 493
serum pepsinogen I; levels in non-ulcer dyspepsia patients 271
sexual transmission, of hepatitis B virus; correlation of infection route with surface antigen clearance 252
sham feeding; gastric acid response in patients with duodenal ulcer 116
Shigella; acute diarrhoea in children in Pakistan 264
smoking
and alcohol consumption; risk factors in oesophageal cancer in southern Thailand 391
involvement in serum pepsinogen I levels in non-ulcer dyspepsia patients 271
solvent; methyl *t*-butyl ether for common bile duct stones 130
sphincterotomy, duodenoscopic; for biliary calculi (Review) 686
spillage; of intraduodenal methyl *t*-butyl ether during dissolution of gallstones 490
splanchnic haemodynamics; effect of verapamil in portal hypertensive rat model 141
spontaneous bacterial peritonitis (Review) 438
stigmata; of recent peptic ulcer haemorrhage (Selected Summary) 96
streptococcal preparation (OK-432); efficacy of on murine fulminant hepatitis 395
subclass restriction, of immunoglobulin G in liver cirrhosis 627
sucralfate, omeprazole and misoprostol; effect on nicotine- and ethanol-induced gastric injury and gastric mucosal blood flow 653
surface antigen, of hepatitis B; correlation of infection route with clearance of 252
synthetic retinoids, and Vitamin A; hepatic toxicity of (Review) 334

T-tube, *in situ*; methyl *t*-butyl ether as solvent for common bile duct stones in patients with 130
Taiwan; clinical manifestations of primary biliary cirrhosis in 560
taurine; regurgitation of bile acids in rat liver under bile drainage 121
technetium-99m pertechnetate; for scintigraphy measurement of portal circulation in monkeys and humans 228
tetrathiomolybdate; effect of treatment on liver copper concentration in Wilson's disease 420
Thailand, southern; oesophageal cancer in 391
transmission, intraportal; of enteric non-A, non-B hepatitis virus in monkeys 608
trientine; effect of treatment on liver copper concentration in Wilson's disease 420
tumour-bearing liver; influence of piecemeal necrosis on mitochondrial respiratory enzymes 7

ulcer, duodenal and gastric
and gastrinomas; gastrin G in gastric antral mucosa of patients 525
antibody to herpes simplex virus type 1 in patients 387
Campylobacter pylori infection in Malaysian patients with dyspepsia 277
ulcer, duodenal; comparison of cimetidine dose regimens in acute treatment of 669
ulceration, oesophageal and ileal; in Behcet's disease (Case Report) 714
ulcerative colitis; enzymes degrading bacterial chemotactic F-met peptides in ileal and colonic mucosa 375
upper gastroendoscopic and clinical features; of dengue virus infection 664
urea test paper; rapid diagnosis of *Campylobacter pylori* infection by 514
ursodeoxycholate loading test; regurgitation of bile acids in rat liver under bile drainage: quantitative analysis by 121

vaccine, hepatitis B; persistence of anti-HBs and protective efficacy after administration of 126
vagal tone; gastric response to modified sham feeding in patients with duodenal ulcer 116
variceal bleeding, active; efficacy of emergency endoscopic sclerotherapy for 432
variceal eradication, by sclerotherapy; 'mosaic-like' pattern of portal hypertensive gastric mucosa after 659
vascular reactivity; to norepinephrine in rats with liver cirrhosis (Selected Summary) 97
vasopressin; versus glypressin in control of bleeding oesophageal varices 549
verapamil; effect of on splanchnic haemodynamics in portal hypertensive rat model 141

Wilson's disease
effect of treatment with 'anti-copper' agents on liver copper concentration in 420
genetic aspects of (Review) 483
genetic heterogeneity (Editorial) 697
in an Australian Aborigine (Case Report) 705

Yersinia enterocolitica; microbial pathogenesis and pathophysiology of diarrhoea (Review) 173
